

## KEEP YOUR COOL UNDER FIRE. LITERALLY.

Keep fresh proteins safely chilled right where you need them. Now you can configure your Vulcan Endurance medium-duty range with a fully integrated Traulsen twin-drawer refrigerated base. Instead of running back and forth or risking food safety, cool it in the heart of your kitchen.

DONE TO PERFECTION.

# ENDURANCE SERIES RANGES

	ADVANTAGE	BENEFIT
Dedicated cold air supplied to each drawer	Maintains safe temperatures even with frequent drawer opening.	Even in harsh kitchen environments, you can ensure the temperature integrity and product safety your diners depend upon. Keep it cool and keep them safe.
Sturdy construction with stainless steel exterior and interior and heavy duty drawers	Works as hard as you do. Built for fast-paced kitchens.	Lower your cost of ownership with structural integrity that will last for years of reliable use. Enjoy top quality, and put your budget on ice for a while.
Self-closing drawers with stay-open feature	Ensures consistent cooling even when employees forget to close the drawer. During unloading, drawers stay open for convenience.	Enable your employees to focus on important tasks, without worrying about whether the refrigerated drawer is open or closed.
6-inch deep pans	Ample space to chill proteins where you cook. Requires less frequent filling.	Improve kitchen efficiency by minimizing frequent trips to the refrigerator, and eliminate the chances of "workarounds," like storing proteins on ice during rush times.
Condenser filter and EZ Clean gaskets	Makes regular cleaning easier and reduces lifetime service costs.	Keep costs associated with cleaning and maintenance downtime. This equipment takes extra work off your plate.

The Traulsen twin-drawer refrigerated base is configurable with our entire line of Endurance range products. Build your ideal range with open top burners, charbroiler, griddle and more. Designed by you, built by us, to perform like no other.
